

RADIATION SAFETY ACT

Approved Radiographers

This document provides a list of persons approved by the Radiological Council for the purposes of assessing x-ray operators under regulation 38(2)(d). It is not comprehensive and does not include all persons previously approved by Council for this purpose. 'Approved radiographer' status only remains current whilst registration with the Australian Health Practitioner Regulation Agency as a practising medical imaging technologist is held.

This list was generated on the date shown in the footer. It does not include persons who have been approved by Council since this date, but may include some 'approved radiographers' who are no longer conducting these assessments. Please contact an officer of the Council for further information.
