

RADIATION SAFETY ACT

Fluoroscopy Licence Holders

The Radiological Council licenses non-radiologist medical specialists and some non-specialist medical practitioners to permit them to use fluoroscopic x-ray equipment in Western Australia. Radiologists are also licensed but are not included in this list. This document provides a list of licensees (including temporary permit holders) for the purposes of "Fluoroscopy - Medical", "Fluoroscopy - Medical (Exemption)" and "Fluoroscopy - Medical (Non-Specialist Exemption)", and the expiry date of each licence.

Non-specialist medical practitioners holding a licence for "Fluoroscopy - Medical (Non-Specialist Exemption)" are permitted to use fluoroscopic x-ray equipment at selected regional locations for the purpose of fracture reductions only.

The list is generated on the date shown in the footer. It does not include licences that have been issued since this date, but will include some licences which have since expired. Please contact an officer of the Council for further information.
