

RADIATION SAFETY ACT
Amendment to Registration:
Unsealed Radioactive Substances (See Note 1)

Name	<input type="text"/>	Phone	<input type="text"/>
Email	<input type="text"/>	Fax	<input type="text"/>
Registration No.	R S <input type="text"/> <input type="text"/> <input type="text"/> <input type="text"/> / <input type="text"/> <input type="text"/> <input type="text"/> <input type="text"/> <input type="text"/> <input type="text"/> <input type="text"/> <input type="text"/>		
Licence No.	L S <input type="text"/> <input type="text"/> <input type="text"/> <input type="text"/> / <input type="text"/> <input type="text"/> <input type="text"/> <input type="text"/> <input type="text"/> <input type="text"/> <input type="text"/> <input type="text"/>		
Registered Location	Institution	<input type="text"/>	
	Address	<input type="text"/>	
	Suburb	State	Post Code
	<input type="text"/>	<input type="text"/>	<input type="text"/>

Amendment Required:

Select one option below, or use the table on the second page for multiple amendments.

- Increase in Maximum Activity of a radionuclide (A)
- Decrease in Maximum Activity of a radionuclide (B)
- Addition of a radionuclide (C)
- Removal of a radionuclide (D)
- Addition of intended use of a radionuclide (E)
- Removal of intended use of a radionuclide (F)

Nuclide	<input type="text"/>	Maximum Activity	<input type="text"/>
Form (select one)	US / UL / UG / AG / GE		(See Note 4)
Intended Use(s)	<input type="text"/> (See Note 4)		
Intended Location	<input type="text"/>		

For multiple sources use the table on the second page. Indicate how many pages of source details are in this application (including this page).

The Registrant or Radiation Safety Officer must sign below for the form to be valid:

Name	<input type="text"/>	Position	<input type="text"/>
Signature	<input type="text"/> Registrant or RSO	Date	<input type="text"/>

OFFICE USE ONLY

Amendment to Registration – Unsealed Radioactive Substances

The Radiation Safety Act 1975 requires anyone who sells or acquires radioactive substances to notify the Radiological Council in writing. The correct submission of this form to the Radiological Council fulfils this requirement.

This form should be completed for *unsealed* radioactive substances only. A separate form is available for *sealed* radioactive sources and also for irradiating apparatus and electronic products.

Notes

1. A sealed source means a radioactive material sealed in a container, or having a bonded cover, strong enough to prevent contact with and dispersal of the radioactive material under the conditions of use and wear for which that container or cover was designed.

An unsealed source means radioactive material which is not a sealed source.

2. Please fill in **all** the required details then send the form to the Secretary of the Radiological Council –

Mail Locked Bag 2006 PO, NEDLANDS WA 6009

Email radiation.health@health.wa.gov.au (Please also include registration number in the subject of the email)

For further enquiries, contact the Radiological Council on +61 8 9222 2000. See also www.radiologicalcouncil.wa.gov.au

3. **Registration/Licence number:**

The whole number must be quoted, for example *RS 100/1997 12345* or *LS 100/1997 12345*. Your registration or licence number can be found at the bottom of your certificate.

4. **Source Details:**

Source Form US - Unsealed Solid GE - Generator
UL - Unsealed Liquid AG - Aerosol Generator
UG - Unsealed Gas

Intended Use Used to indicate the intended use of the source (e.g. calibration; quality assurance; diagnosis; research; education; therapy-synovitis; therapy-skeletal metastases; tracer studies).

5. If the use is for a **new** medical therapy or tracer studies procedure or research laboratory use, please include a summary of the RSO/physicist radiation safety assessment and proposals.
6. A change to the registered amount of a radioactive substance may also require you to request an amendment to a personal licence.
